

Missouri Department of
Health & Senior Services

2005 POD MANAGER'S WORKBOOK

Missouri's Strategic National Stockpile

A Planning Guideline for Establishing and Managing
a Point of Dispensing/Vaccination Clinic

This manual is a supplement to the Missouri Department of Health and Senior Services "Planning Guide for Local Mass Prophylaxis: Distributing and Dispensing the Strategic National Stockpile." It is intended for use by those local public health agencies that plan to operate Point of Dispensing (POD) sites in their cities and/or counties. Assignment of personnel using this manual will comply with the National Incident Management Systems (NIMS) requirement to designate staff for general and command positions.

This POD Manager's Workbook was developed and produced by Battelle (under contract number C304205001) in support of the Missouri Department of Health and Senior Services (MDHSS) Center for Emergency Response and Terrorism. Please contact MDHSS for an electronic copy of this document.
